Short Description of the Organisation	<p>The HRB-TMRN is a new, collaborative initiative between a number of Irish and international higher education institutes and methodology centres. Its mission is to strengthen the methodology and reporting of trials in health and social care on the island of Ireland so that they become more relevant, accessible and influential for patients and other service users, practitioners, policy makers and the public. This will be achieved through a programme of work relating to the methodology of trials and focussed on (i) support (ii) training and education and (iii) research and innovation.</p>

Research Experience (esp. EU projects)	current research project listings are available on our website, https://www.hrb-tmrn.ie/research-and-innovation/ , which includes 4 PhD projects. We are interested in linking directly with researchers in developing research in the methodological areas of clinical trials. We also offer undergraduate summer scholarships, as well as funding to carry out Studies within A Trial (SWAT).
