Position in the Organization	Deputy-Head of the Department in Charge of Scientific-Research Affairs
Phone	+385 91 667 56 36
Email	zpavic@kulturologija.unios.hr

ⁱ **The Marie Skłodowska-Curie actions (MSCA)** provide grants for all stages of researchers' careers - be they doctoral candidates or highly experienced researchers - and encourage transnational, intersectoral and interdisciplinary mobility. The MSCA enable research-focused organisations (universities, research centres, and companies) to host talented foreign researchers and to create strategic partnerships with leading institutions worldwide.

Innovative training networks (ITN) bring together universities, research centres and companies from different countries worldwide to train a new generation of researchers:

- **European Training Networks (ETN)** - The aim is for the researcher to experience different sectors and develop their transferable skills by working on joint research projects in and/or outside academia.
- **European Industrial Doctorates (EID)** - The aim is for the doctoral candidates to develop skills inside and outside academia that respond to public and private sector needs.
- **European Joint Doctorates (EJD)** - The aim is to promote international, intersectoral and multi/interdisciplinary collaboration in doctoral training in Europe.
- **Individual Fellowships (IF)** support the mobility of experienced researchers within and beyond Europe - as well as helping to attract the best foreign researchers to work in the EU.

Research and innovation staff exchange (RISE) supports short-term mobility of research and innovation staff at all career levels, from the most junior (post-graduate) to the most senior (management), including also administrative and technical staff. It is open to partnerships of universities, research institutions, and non-academic organisations both within and beyond Europe.
